

"Purified Water for the Aquarium Enthusiast!"

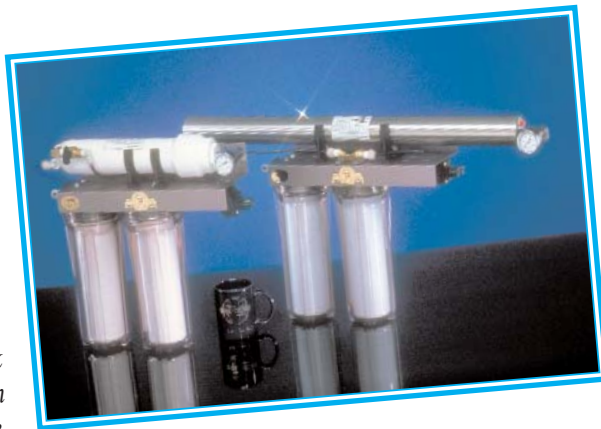

aquafin 10, aquafin 40 and aquafin 100 Wall Mount RO

NEW SUPER LOW PRICED RO SYSTEM FOR THE AQUARIUM ENTHUSIAST!
(choice of holding tanks, carafe faucet, feed and drain valves optional!)

Aquathin Corporation, a manufacturer of over 70 patented & trademarked high technology water treatment systems for residential, commercial and laboratory markets, has developed the economical Aquafin Reverse Osmosis Water Purification System for the aquarium enthusiast.

People who are serious about aquariums have known the benefits of maintaining the quality of aquarium tank water using Reverse Osmosis. RO in combination with granular activated carbon filtration removes chlorine, chloramines and reduces mineral content that can produce detrimental effects within the controlled ecosystem. Filling aquarium tanks with RO water as well as replacement of evaporation, also permits the enthusiast to conduct precise water testing and control various water parameters such as salt contents without the contraindicative effects of unnecessary pollutants. Aquariums filled with RO water result in colorful, vibrant fish and corals.

AQUAFIN comes with twin granular activated carbon (GAC) unidirectional filters in clear "see-thru" housings, manual flush valve to remove potential plaque on membrane, choice of high flow thin film composite or cellulose triacetate reverse osmosis elements; 100% chlorine, chloramine, organic removal, 96-98% rejection of dissolved solids, automatic shut off, tap water pressure gage, all aluminum anodized bracket to resist rust and corrosion, high impact resistant quick lock fittings.

The AQUAFIN 10 produces 10 gallons per day (gpd).
The AQUAFIN 40 produces 40 gpd and the AQUAFIN 100 produces 100 gpd. AQUATHIN also manufactures larger, completely automated, Reverse Osmosis Systems - up to 7200 gpd.

WARRANTY: AQUATHIN® EXCLUSIVE LIFETIME WARRANTY for all parts except for normal module / filter changes or abuse. The WARRANTY remains effective when serviced only with authorized AQUATHIN components.

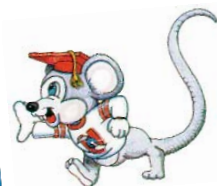

EPA EST. NO. 52531-FL-01

Purifying the Waters of the World...

For the Best Taste in Life!

THE AQUAFIN RO SYSTEM FEATURES:

- ◆ AQUATHIN FLUSH VALVE ASSEMBLY
- ◆ ALL ALUMINUM ANODIZED MODULAR FRAME TO RESIST RUST AND CORROSION
- ◆ PRESSURE GAUGE
- ◆ SEE VIEW FILTER HOUSINGS
- ◆ AUTOMATIC SHUT-OFF
- ◆ AF-100: STAINLESS STEEL RO PRESSURE VESSEL

MODEL AF-40 & AF-10 :	MODEL AF-100 :
19" X 6" X 16"	31 1/4" X 6" X 16"
L W H	L W H

S P E C I F I C A T I O N S

DIMENSIONS & WEIGHT..... AF-10 / AF-40 - 10 pounds
AF-100 - 12 pounds

PREFILTERS AF-10: TWIN 100+ SEDIMENT
AF-40 / AF-100 : TWIN 100+GAC UNIDIRECTIONAL

REVERSE OSMOSIS ELEMENT AF-10: AQUATHIN SPIRAL WOUND CELLULOSE TRIACETATE ELEMENT (10 gpd)
AF-10: AQUATHIN SPIRAL WOUND THIN FILM COMPOSITE ELEMENT (40 gpd)
AF-100: AQUATHIN SPIRAL WOUND THIN FILM COMPOSITE ELEMENT (100 gpd)

APPLICATION: SPECIFICALLY DESIGNED FOR THE AQUARIUM ENTHUSIAST. THE AQUAFIN RO WATER CONTAINS LESS THAN 5 - 10% MINERAL CONTENT, CHEMICAL and ORGANIC FREE WATER. ASK ABOUT THE AQUATHIN PATENTED REVERSE OSMOSIS / DEIONIZATION AQUALITE or PLATINUM 90 SERIES FOR RESIDENTIAL and LABORATORY APPLICATIONS. THE AQUALITE or PLATINUM 90 IS FULLY AUTOMATIC, INCLUDES AUTO-FLUSH and OPTIONAL BOOSTER PUMP ASSEMBLY WHENEVER LOW PRESSURE IS A PROBLEM OR MORE WATER PRODUCTION IS REQUIRED.

OPTIONS AVAILABLE..... RO-4 (4 GALLON NSF APPROVED PRESSURIZED RESERVOIR)
ELEGANT CARAFE FAUCET DISPENSER
FLOAT or BALL VALVE ASSEMBLY
