Dear Alfred:

You are right...it's been 6 years now since we started doing business together, and I have personally enjoyed this business relationship and friendship all this time. Every product we have installed and every project we have finished, has confirmed us that 6 years ago we made the best choice with Aquathin. And truly expect to continue giving customers the Aquathin solution to their problems or concerns for the years to come.

We confirm the renewal of our Agreement for another year, which we are sure will be full of success.

Please extend our gratitude to Debbie, Matt, Mitch and the rest of your staff for all their help thru these years, and specially to you for being there every time we needed it.

Best Regards,

Hi Alfie,

I want to tell you how much I truly enjoyed the schooling you, Mitch and Matt provided. It was a tremendous amount of information and you presented it in an understandable process. I told a future customer of mine that I am now even more convinced that Aquathin is the only company that can handle any water situation. I have total certainty on this now.

You, your family and your employees have really created a wonderful company that is now and will continue to be so important in peoples lives - we just can't live without clean & pure water.

Please pass on a special thanks to your Dad for his assistance and humor.

Live Well,

Dear Alfie,

Thanks so much for providing the thorough training at Aquathin University. It was not only informative, but entertaining too. It was great to meet you, Mitch and Matt in person. My journey to Florida was well worth the investment and Aquathin University exceeded my expectations.  
Very best regards,

Alfie:

Before this week totally zooms by I just wanted to express my thanks for the excellent three days spent at Aquathin University. I especially enjoyed the first two days, which expanded my understanding of the many fine products that you manufacture and gave me confidence in your company. I really enjoyed meeting the members of your family that are also a big part of making Aquathin a success. There is loads good information I have yet to digest in the books you handed out.

Sincerely,

Steve White.
