Subject: ENGINEERS, BUILDING CONTRACTORS, GOVERNMENT OFFICIALS ON LIST

Dear Aquathin Dealer OnLine;

*We are receiving requests from several Dealers to add the contacts they make with engineers, building contractors, lab and government officials, along with end users, to the Splash NewsBulletins and more importantly the Forum Q & A emailings. These Dealers have found out first hand (as we teach at Aquathin U.), that engineers etc., suffer from "Knowledge Deficit" in our industry and appreciate receiving good information. **Additionally what is extremely important, these emailings will act as an umbilical cord from you to the engineers, building contractors, lab and government officials, who will want to remain "nourished" with information. That equates to sales.***

*I am pleased to inform you that a special folder has been prepared for including your contacts for receiving these emailings. I would respectfully recommend that you review your personal business card and address book of contacts, call the contacts and informing them of our / your NewsBulletin and Forum Q & A FREE service **"to keep you abreast of technology updates and industry news"** and send us as many email addresses as you wish.*

Have a great weekend and warmest regards to all,

FOR THE BEST TASTE IN LIFE
