Subject: FORUM Q & A: WHAT IS A FRESH WATER LENS ?

Dear Aquathin Dealer OnLine;

Today I received an inquiry from a Dealer in the Caribbean needing to treat rotten egg sulphur odor from a reservoir fed by both the roof and fresh water "lenses". Man I knew I was getting old when I heard this one as it has been a gazillion years since I last heard or used this "lens" description. But I thought it proper to review with you because as the world begins to experience more drought (or sucking more water than rain normally replaces as is most of these so called drought related cases), I suspect we'll all be reading and hearing "fresh water lenses".

Click http://sparce.evac.ou.edu/q_and_a/ground_water.htm for a terrific explanation.

I LOVE MY AQUATHIN ! AND REMEMBER, THE NEXT BEST THING TO OWNING AN AQUATHIN IS RECOMMENDING ONE TO A FRIEND !!

Let me know what you AquathinK !

Warmest regards to all...as well, your comments are always welcome and very much appreciated.
